

INDUSTRY LEADER

—

AESTHETIC AND

FUNCTIONAL

To ensure that the trolley runs smoothly and stably, the rails on the new ladder are made of solid stainless steel – as is the case with all MWE ladder systems. The height of the ladder and the length of the running rail can be adjusted depending on the application. Each ladder is individually planned and drawn by the MWE technical department and, after approval of the construction drawing, manufactured in the in-house ladder department.

The lower roller with self-developed braking technology, which holds the ladder very precisely in place under load, ensures a safe step. Incidentally, the steps can be made of different types of wood or, if necessary, with perforated sheet metal, according to customer requirements.

OLD LOOK IN A NEW DESIGN

INDUSTRIAL STYLE
DOOR SYSTEMS . INDUSTRIAL LADDERS . PARTITION SYSTEMS

According to the zeitgeist in the design of the industrial style our product designers have created a ladder system with which interiors can be designed individually. As an interesting alternative, the library ladder from MWE offers a modern interpretation of industrial optics.

INDUSTRIAL LADDER

STEEL FITTING

It comes in a noble retro look
Sliding door fitting SB.0001 off
blasted and black blued steel - a
new "old fitting" from MWE. The
rustic sliding door fittings are
visually reminiscent of times gone
by. 100 years ago, the massive and
cumbersome steel gates had a
purely practical use. Our steel fitting
visually has the charm of the past,
but offers all the advantages of the
modern age in terms of function and
technology.

WITH AN URBAN
LOOK

INDUSTRIAL STYLE ZEITGEIST OF MODERNITY

Industrial chic is probably one of the trendiest styles of today.

We deliver black steel and

Stainless steel systems in various black surface variants.

Experience loft character - with impressive partition walls, door fittings and library ladders.

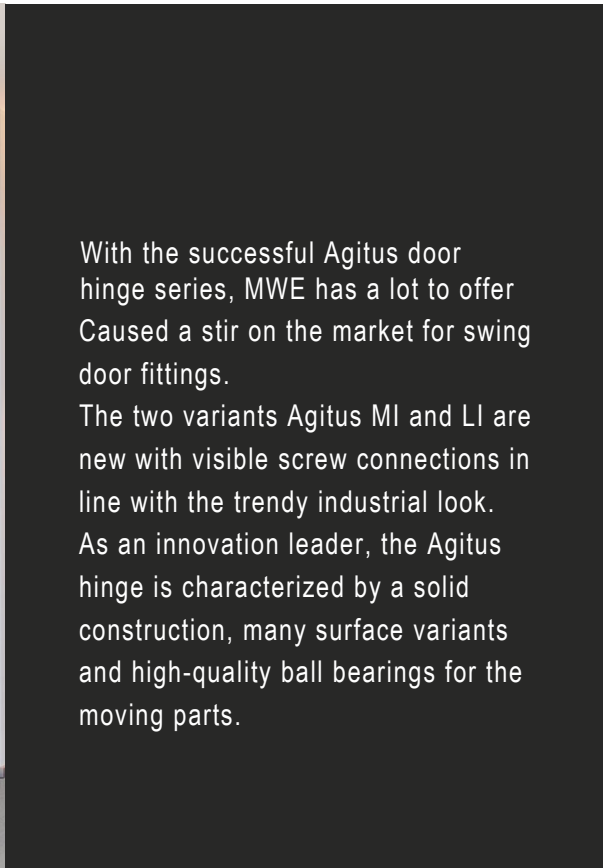

PARTITION SYSTEM

Filigree glass partitions and black steel
More and more popular. They divide
large rooms such. B. Kitchen, living
and commercial areas.
Reminiscent of spacious lofts, the
room dividers were inspired by old
industrial windows. But even in limited
space situations with z. B. a vestibule
element or a trendy room door, you set
strong accents with MW01.

MODERN PARTITION SYSTEM MW01 GLASS AND BLACK STEEL SPACE SEPARATOR

With the successful Agitus door
hinge series, MWE has a lot to offer
Caused a stir on the market for swing
door fittings.
The two variants Agitus MI and LI are
new with visible screw connections in
line with the trendy industrial look.
As an innovation leader, the Agitus
hinge is characterized by a solid
construction, many surface variants
and high-quality ball bearings for the
moving parts.
